CLEVER PRODUCTS THAT ADD VALUES

LOW BEAM CONCEPT

Keep your COUNTERBALANCING SYSTEM right above the door opening even for high lift and vertical lift doors.

REDUCE RISKS OF ACCIDENTS as well as maintenance and installation costs for a reasonable premium on high lift and vertical lift industrial doors.

CHAIN HOISTS

Canimex Torque Force is the leader in garage door manual lifting systems. Our chain hoists are recognized for quality and reliability. Torque Force, the only manufacturer in North America, ensures the highest quality control.

Proven quality and reliability

CHAIN TENSIONNER

- > Prevents hand chain hoist from tangling in operation
- > Reduces noise
- > Reduces risks of accidents

Once you try it, you need it!

HOLLOW SHAFT & SOLID SHAFT ZINC PLATED

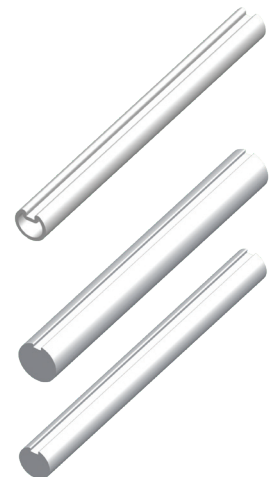

Inside appearance of the doors is more and more important for customers nowadays. Our shafts offer a cleaner solution both visually, for customers, and practically, for installers.

Enhanced interior appearance • No mess

SOLID SHAFT ZINC PLATED 1" & 1:1/4"

HOLLOW SHAFT WITH KEYWAY ZINC PLATED 1"

Help your customers save money by replacing solid shaft on light commercial doors with a hollow shaft with keyway.

DECORATIVE PRODUCTS

FULFILL YOUR CUSTOMERS' NEEDS by offering the premium solution in decorative hardware.

Canimex Torque Force Aluminum serie Decorative solution:

- › Lighter products that won't affect the counterbalancing of the door
- › Rust free material that won't stain the door
- › Great for coastal environments
