

URETHANE ROLLERS

MECHANICAL AND ELECTRICAL DIVISION

Canimex introduces the new CNX urethane rollers for potato harvesters. Contact our experts to find out more about our comprehensive solutions.

Offering better abrasion and tear resistance than rubber, the CNX urethane rollers are capable of withstanding the wear and tear of repetitive operations helping to ensure the seamless movement of potato harvesters equipment.

- **3 lips seal bearing** to keep dirt and mud away
- **Superior abrasive resistance** over regular rubber rollers
- **Medium to heavy-duty applications**
- **Available in different sizes**
